

- **Petkim Petrokimya Holding A.Ş.** is the leading petrochemical company of Turkey. Founded on April 3, 1965, the main plant complex is located in Yarımca, Izmit. From 1985 a second complex has been constructed in Aliğa, İzmir.
- Specializing in petrochemical manufacturing, the company produces ethylene, polyethylene, polyvinyl chloride, polypropylene and other chemical building blocks for use in the manufacture of plastics, textiles, and other consumer and industrial products. The company has 14 manufacturing plants supplying a significant portion of petrochemicals used in Turkey. The company also exports products to the United States, and countries in Europe, the Middle East, Africa, and Asia.
